

READ ME FIRST!!!

This replacement Lytron Chiller is not to be used for trouble-shooting existing issues with your cryogenic system. This chiller is to be installed as a whole assembly per OEM standards. **Before installing make sure all power is OFF. This unit requires 208VAC / Single Phase.**

Only use OEM specified anti-freeze in this Lytron Chiller. Failure to do so will void any warranty. Per OEM standards, keep 3 feet of spacing clear of radiator for best results.

This part has tamper-proofing in place. If part has been tampered with, without prior authorization, the part will be treated as an exchange and credit will not be issued.
